Brain Engagement Attention and Modeling

The Murray Lab is looking for participants for a study exploring how the brain's visual system processes motion. Participants will complete online structured interviews, and around 4 sessions of computer, behavioral, and MRI experiments involving visual stimuli on UW campus.

Why should I take part?

Depending on your participation, you can earn \$30 - \$200. And if you're interested, we can send you images or 3D-printable files of your brain!

Eligibility

To participate you must be:

- An adult between the ages of 18-30 years old
- Have no psychiatric diagnoses (other than depression and anxiety)
